ANOTHER ADVANCE IN GRAINS EXORMOUS EXPORT SHIPMENTS AF FECT WHEAT MARKET.

Wheat Advanced 3-Sc. Corn and Onts Remained Practically Unchanged and Provisions Were Flat Yesterday in Chicago.

CHICAGO, Nov. 12.-Enormous export takings at the seaboard to-day caused an advance of %c in December wheat. May closed unchanged. Corn and oats are un changed. Pork and ribs left off unchanged

and lard rose 2%c.
The strength developed by wheat yesterday was still more pronounced at the opening to-day. Cables were higher and the seaboard reported a good foreign demand. New York indorsed these dispatches by leading in the advance that immediately commenced. The weather in the West was fine and favorable for a free move was nne and favorable for a free movement from farmers and receipts for the day were liberal. Chicago received 255 cars, against 131 a year ago, and Minnespolis and Duluth reported 1,225 cars, compared with 1,239 for the same day last year. Primary Western market receipts, all told, 1,540,600 bushels, compared with 1,119,000 bushels last year. Wornd's shipments were estimated at 8,000,000. Clearances of wheat and flour from Atlantic ports were very heavy, more especially in flour, the aggregate being equal to 355,900 bushels. Flour brokers here reported acceptances from Londom of offers made yesterday and at a better price than any previous time this season. The price received for patents was said to net 10c a barrel more than could be got from the home trade. New York reported 100 to 123 boatloads sold for export and a shipping firm here had three boatloads accepted from Liverpool. December was strong from start to finish, but May did not participate to any marked degree in the demand. December made a net gain of \$6.60. May opened unchanged at 6654c, advanced to 664c, reacted to 66466%c and closed at 6654c. ment from farmers and receipts for the

66%c.

Heavy purchases of December by shippers and covering by May shorts had a firming influence in corn. Cables were higher and the strength in wheat was also a factor. Receipts were heavy, 450 cars, but unsettled weather was predicted for over Sunday and light arrivals are anticipated next week. May began a shade lower at 3546255c, sold up to 23%c and closed at 35%c, buyers.

Oats ruled firm with other grains. Only

Oals ruled firm with other grains. Only a light business was transacted and fluctuations were of the narrowest kind. Receipts were 235 cars. May opened a shade lower at 24542 244c, held steady at 245c and closed at 245424c.

Provisions were flat. Packers sold freely, owing to the liberal receipts of hogs, but the strength in grains checked any decline in prices. The week's shipments were heavy, 15,435,000 pounds of meats and 12,399,000 pounds of lard. The range of prices was very narrow.

Estimated receipts for Monday: Wheat, \$59 cars; corn, 470; oats, 290; hogs, 28,000.

LOCAL GRAIN MARKET.

Wheat More Active and Higher-Corn Also Firmer-Onts Ensier. In store-Wheat, 983,500 bushels; corn, 67,500 bushels; oats, 42,600 bushels; ryc, 52,500 bushels. Wheat.

Grain Notes.

Rain or snow is predicted for this region of the

spare.

A Minneapolis message yesterday said: Millers and shippers are scrambling for cash wheat ign higher than yesterday.

Minneapolis received 561 cars of wheat yesterday, against 702 cars a year ago, and Duluth 665 cars, against 525 cars a year ago. Puts on Chicago December wheat, good this week, were quoted at 65kg; calls, 68kg; puts on May corn,

Exp. calls, 24%:

A Chicago message said: H. B. Smith, the flour exporter, sold 1,600 barrels of flour to London this morning at the highest price on the crop.

A Chicago message verterday said: There has been 125,000 bushels of rve sold for export in the past two days. This indicates an active export demand from the Continent.

Exporters took at New York Friday 664,000 bushels of wheat, 120,000 bushels of corn, 76,000 bushels of wheat at outports.

The exports of corn from the United States in the

wheat at outports.

The experts of corn from the United States in the nineteen weeks since July 1 amount to 52,487,500 bushels, sgainst 55,388,500 bushels a year ago, 56,-485,500 bushels two years ago, 22,507,000 bushels three ears ago. Exports of Indian corn from the United States the

past week amount to 2.142.745 bushels, against 3.566,-640 bushels last week, 2.632.000 bushels in 1897, 3.782,-990 bushels in 1895, 1.921.000 bushels in 1895 and 198,-990 bushels in 1894. The primary market receipts yesterday were 1,539,-850 bushels of wheat, against 1,118,560 bushels a year ago. Shipments were 1,167,772 bushels; last year, 622,000 bushels. Corn receipts, 684,445 bushels; a year ago, 620,000 bushels. Shipments, 629,376 bushels; last year, 318,000 bushels.

last year, 318,000 bushels.

The exports of wheat and flour from both coasts of the United States and Canada in the nineteen weeks since July 1 amount to 77,039,000 bushels, against \$8,250,000 bushels are ago, \$3,265,000 bushels two years ago and 31,458,000 bushels three years

The total exports of wheat, flour included, from the United States and Canada the past week aggre-gate 3.647,593 bushels, against 6.772,643 bushels the previous week, 5.446,000 bushels in 1896, 2.735,900 bushels in 1895 and 2.510,000 bushels in 1896, 2.735,900 bushels in 1895 and 2.510,000 bushels in 1896. F. G. Logan, of Chicago, wired W. W. Cowen yes-terday: "It is significant that in spite of their large purchases on this side yesterday, that tone remains so strong, stocks being so light compelling almost continuous buying, is apparently the reason. Not much decline from present level can be expected with such conditions.

with such conditions."

The Chicago Times-Herald says: "A good many people," says a Chicago authority, "felt last night that a million bushels of wheat sold to go abroad in a single day from the seaboard, and, in all like-lihood, some further bushess on roundabout routes, and not reported there, was no special reason for feeling panicky on the wheat price."

feeling panicky on the wheat price."

The Iowa November crop report shows the corn crop 270,000,000 bushels; wheat, 25,270,000 bushels; cats, 41,875,000 bushels; barley, 11,300,000 bushels; and rye, 3,561,000 bushels; barley, 11,500,000 bushels, and rye, 3,561,000 bushels. The state figures on corn are very close to the government's, which are 368,000,000 bushels. This is 20,000,000 bushels over 1897.

Puts on Chicago December wheat, good Monday, sold at 678,9565; calls, 665,8656; and closed at 659; December wheat rold on the curb at 639; (December wheat rold on the curb at 1896; calls, 1836; May corn sold on the curb at 1896; calls, 1836; May corn sold on the curb at 1896.

Celery Mostly Marketed. Celery Mostly Marketed.

Bobert Gees, who returned yesterday from a business trip extending through the celery and apple district of Utah, says that there will be a shortage of celery for the Thanksgiving trade. The season for Michigan celery is practically over, and Nebraska growers made their last big shipment nearly a week ago. About 20 acres was grown in Utah this year, or more than ever before. The California crop is about the same as last year, when the output amounted to about 250 cars. One local firm has fitteen cars of California and Utah celery in transit which is expected to arrive by next Wednesday. Mr. Gees says that the bulk of apples has been sold in Utah. He knows of only three cars that are not either sold or contracted for. The bulk of potatoes has been sold and is beginning to move East.

Stocks and Bonds.

Stocks and Bonds.

NEW YORK, Nov. 12.—The process of digestion of railmal and corporate securities was continued on an enormous scale at to-day's short session of the Stock exchange. The public was in the market again as buyers at the opening and very heavy of ders placed with commission houses were executed throughout an extended list. At the same time recent myers, who saw an inviting prospect to secure profits at the present advanced level of prices were sellers. The result was a very active and broad market, the constant exchange of securities going on in the first hour resulting in rather important changes in prices, except in a few cases. With the completion of the buying orders the realizing offerings were in a way to exceed the demand in the second hour and prices showed a sagging tendency. But the violent advance in Sugar to 1234, or almost 8 points net, caused a sympathetic hardening in prices, and turned the traders to the builded and induced the shorts to cover hastily. The result was a strong close, notwithstanding the final side and induced the shorts to cover hastily. The result was a strong close, notwithstanding the final side and induced the shorts to cover hastily. The result was a strong close, notwithstanding the final side and induced the shorts to cover hastily. The principal activity in the architoso securities was continued and gave tone to the whole market. The principal activity in the movement showed a backery to shift from the preferred to the common stock, which advanced Pa, on the day. The preferred stock and the bonds continued in large demand, the former closing at a net advance of 14, other properties in which the leaders in this movement are interested were also notably strong, including People's Gas. Rock Island and Brooklyn Transit, but the Federal Steel stocks showed a haiting tendency. The strength of Louisville and Southern Fa clife was due to the excellent traffic returns of the two roads for the first week in November. The back graded.

CATTLE TO CHOOSE FOR FEEDING. Points Farmers Should Regard in Se-

lecting Stock. Professor C. T. Curtiss makes these suggestions to farmers regarding the selection of stock cattle for feeding in the forthcoming annual report of the bureau of animal industry: Practical and experienced inal industry: Practical and experienced feeders, who breed and purchase steers for fattening, observe striking differences in the aptitude of animals of varying types and make-up to lay on flesh readily and in such form and quality as to command the highest price on the market. It requires a well trained eye to detect in all cases the possible variation of results in the store or atock steer; but there are some distinctions that are easily detected. There are certain types of cattle, for instance, that never-feed prolitably under any conditions, and it is quite as important to discriminate against these in the feed lot as to be able to recognize the excellence in other types. The characteristics that make the prolitable feeder are maturally more difficult to detect in animals in stock condition than when fattened, but notwithstanding this there are a number of indications that are fairly reliable. Though the young steer may be comparatively thin in flesh and temporarily lacking the thick, eyen covering of the back and ribs so essential in the linished carcass, he must nevertheless present that blocky frame and stoatness of build, accompanied by short, straight legs, wide back and loin, well sprung ribs, fullness back of shoulders and in flanks, prominent brisket, full neck vein, wide chest, and well rounded barrel, together with a good, soft, mellow handling skin, and fine, silky hair, giving what is termed the thick. feeders, who breed and purchase steers for and well rounded harrel, logether with a good, soft, mellow handling skin, and fine, sliky hair, giving what is termed the thick mossy coat, without coarseness, and with it all a good, strong, vigorous head, clear, full eye, and quiet temperament. The im-The usual Saturday's duliness prevailed isoft in horses and mules, but what few miles made were at steady prices, Quotations:

HORSES—Draft horses, good, 1,252 to 1,459 pounds.

Solvers, extra 65063139 60 privers, good 6 of 606 80 90 90 privers, good 6 of 606 80 90 90 privers, good 6 of 606 80 90 90 privers, good 70 00 608 80 90 90 privers, good 70 00 608 80 90 90 privers, good 8 of 606 25 90 90 privers, good 70 00 privers, good 70 privers, good 70 privers, good 70 privers, good 70

superior article.

The parts furnishing the high priced cuts must be thickly and evenly covered with irm yet mellow flesh of uniform good quality and alike free from hard rolls and blubbery patches. Coarse, harsh and gaudy animals will no longer be tolerated, much ity and alike free from hard rolls and blubbery patches. Coarse, harsh and gaudy animals will no longer be tolerated, much less those that are bony and bare of flesh on the back and ribs. The men who buy our cattle and fix their market value are shrewd enough to know almost at a glance how much and just what kind of meat a steer or carload of steers will cut out, and if the producer overlooks any of the essential points he is compelled to bear the loss. Then, in addition to securing the general beef form and make-up, together with good backs, ribs and loins, there is a certain quality, character, style and finish that constitute an important factor in determining the value of beef cattle. One of the first indications of this is to be found in the skin and coat. A good feeding animal should have a soft meliow touch and a soft but thick and heavy coat. A harsh, unvielding skin is an indication of a sluggish circulation and low digestive powers. The character and finish exemplified by a clear, prominent yet placid eye, clean cut features, fine horn and clean, firm bone, all go to Indicate good feeding quality and a capacity to take on a finish of the highest excellence, and consequently to command to finish properly. A certain amount of size is necessary, but it should be obtained without coarseness. The present demand exact quality and inish rather than size. Besides these qualities, and above all. It is necessary to have vigor and constitution. We find evidence of these in a wide forshead, a prominent brisket, broad chest, well sprung ribs, full heart girth, and general robust appearance; and without hese other excellence will not have its highest significance.

HOMESEEKERS' EXCURSIONS Via the Katy Route-Short Line to

Teras. On November 15th, December 6th and 25th, the Missouri, Kansas & Texas railway will sell tickets to all points in Texas, to points in Arizona. New Mexico and Louisiana at very low rates. For particulars, call at ticket offices, 823 Main street, 1918 Union avenue and Union depot.

T. J. FITZGERALD,

Passenger and Ticket Agent.

A tract of 1,150 acres of timber land in West Virginia that was granted to George Washington by King George III. of England for his services in the Indian wars previous to the Revolution has just been sold to lumber speculators. It was the property of the wife of Professor Kirby Smith, of the Johns Hopkins university, a descendant of Mary E. Custis, to whom descendant of Mary E. Custis, to whom eneral Washington willed it.—New York

City firms.

Location is important, but to let the people know where you are and what you have for sale is more important. The Journal reaches the people—try our want columns.

iew Texas Quarantine Regulations-A Big Hereford Show and Sale for Kansas City-Visitors at the Yards With Stock.

"The cattle situation in Western Texas not what we would like to have it," said . W. Merchant, of Abilene, who was a siter at the yards yesterday. "I have sever known feeding cattle so scarce before. never known feeding cattle so scarce before. I have find to ship cattle in from the Irdian Territory to feed at my cotton ein mill, and had to take a number of caws and buils and have not got enough now to use up all my product. There are very few cattle in our section over yearlings. We have good ranges and plenty of water, but fewer cattle than for years to stock them. The biggest oil mill in Texas has not a hoof of cattle on sale. It is generally argued that the number of cattle fed in Texas this winter will be 40 per cent short. Our cattlemen have got to go to work and fur cattlemen have got to go to work and raise young cattle and stock up again by breeding, as there is no surplus cattle to buy."

Doc Day, who is up from Fort Supply, I. T., says they have the usual number of cattle in that section and that they go into the winter in good condition.

Underwood, Short & Bell, of Franklin, La., got a car of fine sugar mules here yes-terday.

George C. Liston, of New Orleans, and John Phillips, of Columbus, Ga., were here yesterday after horses and mules. A few nice driving horses were taken here for shipment to Old Mexico.

Southern cattle are beginning to run much lighter. The receipts here in the quarantine division last week were 2.70 cattle and 355 calves, against 5.75 cattle and 698 calves the week previous.

Packers got 7,640 hogs here yesterday. The number of hogs packed in the West the past week was 480,000, against 285,000 the same week last year.

The Texas live stock sanitary board, at its meeting at Fort Worth, last Thursday, made a ruling that all cattle in the quarantine district must be inspected before crossing the line and free of ticks before allowed to pass, and when ticky, must be dipped and adjudged clean before they can proceed. This is virtually closed season.

Visitors at the Yards With Stock. G. J. Means had hogs from Toronto, Kas.,

V. C. King, of Plainville, Kas., had hogs John Bissell, of Orrick, Mo., was in with hogs yesterday. Champ Workman came in with hogs from Grain Valley, Mo. Kelley Bros., of Edgerton, Kas., had hogs

m market yesterday S. L. Thompson, of Lilly, Mo., came with hogs vesterday. Charles Farley, of Kipp, Kas., came in with hogs yesterday.

A. J. Tilsey, of Lucas, Kas., had hogs on the market yesterday. Jesse S. Wright was in with hogs from Newton, Kas., yesterday. Baker Bros., of Jewell City, Kas., had Alex Grossman, of Bosworth, Mo., was here with hogs yesterday.

S. S. Rebstock, of Newton, Kas., had hogs on market yesterday. John Cramer, of Wellsville, Kas., came to market with hogs yesterday. W. P. Meinecke brought hogs from Greenleaf, Kas., yesterday. E. F. Taylor, of Oklahoma City, O. T., came in with hogs yesterday. T. E. Benning brought bogs to market from Mayview, Mo., yesterday.

THE WORLD'S WHEAT CROP.

Late Returns From All Wheat Growing Countries Indicate a Big One. WASHINGTON, Nov. 12.-Statistician Hyde, of the agricultural department, has ompleted the official report of the cropof the world for this month and a revised review of the world's wheat is an important feature. The Russian wheat crop is now put by the ministry of agriculture at of 30,000,000 bushels over the Hungarian official estimate. An estimate, believed to be below rather than above the actual yield, is credited to the Hungarian agricultural ministry, estimating the Hungarian wheat crop at 122,277,300 bushels of sixty pounds. An estimate, said to be the pre-liminary official one, puts the German wheat crop at \$.000,000 bushels more than 187's, making it, in round numbers, 115,000,-000 bushels of sixty pounds. The official estimate of the Italian wheat crop puts it at 133,371,900 Winchester bush-els.

The latest estimate of the Spanish wheat crop are a little less than 95,000,000 Winchester bushels. The London Times estimates the wheat crop of the United Kingdom at 77,90,000 Winchester bushels, considerably in excess of the estimates a month ago. The official estimate for Roumania makes of the estimates a month ago.

The official estimate for Roumania makes its wheat crop \$8,456,94 Winchester bushels. Official figures for Manitoba give its wheat crop at \$2,729,88 Winchester bushels. Preliminary official figures make the crop of Ontario 3,023,67 Winchester bushels, the total for the two provinces being 39,78,87 Winchester tushels. As the wheat area of the more enatern provinces was nuch larger than in recent years, it seems likely that the total for Canada will reach the highest of last month's estimates, \$2,000,000 imperial bushels. On the whole, the changes from a month ago increase the total estimate of the world's wheat crop, but the conditions affecting the crops of the Southern hemisphere are scarcely as favorable as they were commonly supposed to be when the estimates used in the table published a month ago were made. Australia has suffered from drouth, out this is now broken, good rains having fallen throughout Victoria. South Australia and New South Wales.

If the Australasian wheat crop should fall short of the Broomhall estimates, the largest, it may in any case could or be.

New South Wales.

If the Australasian wheat crop should fall short of the Broomhall estimates, the largest it may in any case equal or perhaps exceed the very moderate estimates of the other two authorities announced last month. The Broomhall estimate was 54,000,000 bushels and the Hungarian estimate only 37,000,000 bushels of sixty pounds, while the estimate of the Builetin des Halles was 5,000,000 Winchester bushels. Severe frosts have been reported from Argentine, but the latest accounts as to the outlook for the wheat crop in that country are not favorable.

As to other crops, the estimates for France for barley is 52,167,765 bushels, and for outs 26,069,074 bushels. The provisional estimate of the Russian agricultural ministry give in Winchester bushels: Winter wheat 14,88,000; spring wheat 25,881,000; total wheat 41,40,000; rye, 717,786,000, barley, 20,141,900; outs, 96,851,000; maize, 42,779,000.

The official crop report of Austria for the

779,000.

The official crop report of Austria for the middle of October represents the oats crop as generally satisfactory in quantity and still more so in quality. Except in the still more so in quality, mountain districts, maize still more so in quanty, except in the mountain districts, maize is mostly harvested and hardly a medium crop. Buck-wheat suffeced partly from drouth and partly from frost in the northern and eastern provinces, but in the middle cone more satisfactory. The barley crop was deficient in quantity and quality. In general, however, the cereal crops were satisfactory. The kernels were mostly full, heavy and of a good color. Fall sowing was delayed by drouth throughout a large part of Europe, but there is no reason to apprehend any material detriment to the crop from the delay though in some countries the area sowing was effected under generally favorable conditions, but the weather was too cold for welfare of the young crops. No serious injury has, however, been reported and in most other countries the grain, so far as sown, has been favored by subsequent rains and mild temperature.

An old Irish laborer walked into the luxurious studio of William Keith, the artist, a few days ago, and asked for money to obtain a meal. He explained that he had just been discharged from the county hospital and was too weak to work. Mr. Keith gave him a quarter, and he departed. One of four young ladies, art students, who were present, said: "Mr. Keith, can't we hire that old man and sketch him?" Keith ran out and caught him, and said: "If you can't work and want to make a dollar, come back to my rooms. The young ladies want to paint you." The Irishman hesitated, so Keith remarked: "It won't take long, and it's an easy way to make a dollar." "Ol know that," was the reply, "but Ot was a wunderin' how Ol'd git th' paint off aftherward."—Argonaut. An old Irish laborer walked into the

He had been thinking deeply for minutes. "I cannot agree with the said finally, "when he bewalls that we cannot see ourselves as us. I think he has it all wrons would you change it?" she asked think we should rather ask for to make others see us as we see —Chicago Post.
